## WELD COUNTY WEBSITE NOW MOBILE FRIENDLY FOR SMART DEVICES

WELD COUNTY, CO – The Board of County Commissioners is excited to announce the county website is now mobile friendly. The new responsive design, which debuted this week, allows the website to adjust to the mobile device on which the page is being viewed.

“The Board directed staff to find ways to better share the information, services, and resources Weld County Government offers to residents. Deploying a mobile-friendly website is a huge step in the right direction,” said Commissioner Barbara Kirkmeyer.

Over the past 6 months, approximately 25% of the visitors on the county homepage were using a smartphone or tablet and that number is expected to continue to grow. The mobile site is very similar to the county website and will allow visitors to stay up-to-date with county information.

“The IT department has been working very hard on new initiatives, and we are happy to be able to provide the residents of Weld County with an improved avenue to access information,” said Commissioner Kirkmeyer.
