Physical Distancing is Important

• We continue to see ongoing community spread of the virus
• Still need to reduce the contact rate between infectious and susceptible people
• Without a vaccine, physical distancing is one of the best tools we have to slow the spread
Colorado COVID-19 Report

Nearly 200 Weld residents have been hospitalized due to COVID-19 since early March & over 30 have died
Although our healthcare system is seeing more COVID-19 cases, our ventilator supply appears to be adequate at this time.
