PLUMBING GENERAL NOTES:

1. Omissions and Specifiction are Comprehensive - What is Not Called Out in Drawings Is Not Considered to Be Included.
2. The Equipment Specified in the Drawings is the Basis of Design. The Use of Similar or Identical Equipment from Other Sources is Permitted Providing Both Equipment Meet the Specifications.
3. All Work is to be done in Accordance with All Applicable Codes, Codes of the Area, and Any Additional Specifications.
1. EXISTING 4" SS CONTINUED.
2. EXISTING SANITARY TO JANITORS CLOSET TO REMAIN AS IS.
3. DEMO EXISTING WASTE PIPING TO BELOW SLAB AND CAP AIR TIGHT. DEMO EXISTING VENT PIPING TO ABOVE CEILING AND CAP AIR TIGHT.
4. DEMO AND REMOVE EXISTING SINK. DEMO EXISTING WASTE PIPING TO BELOW SLAB AND CAP AIR TIGHT. DEMO EXISTING VENT PIPING TO ABOVE CEILING AND CAP AIR TIGHT.
5. DEMO EXISTING FLOOR DRAIN. DEMO EXISTING WASTE PIPING TO BELOW SLAB AND CAP AIR TIGHT.
6. REMOVE EXISTING DRINKING FOUNTAIN AND SAVE FOR REUSE. DEMO EXISTING WASTE PIPING TO BELOW SLAB AND CAP AIR TIGHT.
7. DEMO EXISTING WASTE PIPING TO BELOW SLAB AND CAP AIR TIGHT. DEMO EXISTING VENT PIPING TO ABOVE CEILING AND CAP AIR TIGHT.
WORK NOTES:

1. EXISTING 4" SS CONTINUE.
2. FLOOR SINK TO REMAIN AS-IS.
3. CONNECT NEW 3" SS TO EXISTING AT THIS LOCATION.
4. CONNECT NEW 2" SS TO EXISTING AT THIS LOCATION.
5. 2" VENT CONTINUE TO NEAREST VENT LINE OF GREATER OR EQUAL SIZE. PLUMBING CONTRACTOR TO FIELD VERIFY EXACT CONNECTION LOCATION.
6. LOCATION OF REMOTE PNEUMATIC TOILET FLUSH VALVE.
DEMOLITION NOTES:

1. EXISTING COLD WATER AND HOT WATER CONTINUE.

2. BRAKE AND REMOVE EXISTING LAV. BRAKE EXISTING COLD AND HOT WATER TO CEILING SPACE AND CAP AIR TIGHT.

3. BRAKE AND REMOVE EXISTING WATER CLOSET. BRAKE EXISTING COLD WATER TO CEILING SPACE AND CAP AIR TIGHT.

4. BRAKE AND REMOVE EXISTING SINK. BRAKE EXISTING COLD AND HOT WATER TO CEILING SPACE AND CAP AIR TIGHT.

5. REMOVE EXISTING DRINKING FOUNTAIN TO CEILING SPACE AND CAP FOR REUSE. BRAKE EXISTING COLD WATER TO CEILING SPACE AND CAP AIR TIGHT.

6. EXISTING RESTROOM GROUP TO REMAIN AS-IS.
WORK NOTES:

1. CONNECT 1" CW AND 3/4" HW TO EXISTING AT THIS LOCATION. PLUMBING CONTRACTOR TO FIELD VERIFY EXACT CONNECTION POINT.

2. HOLDING CELL SOLENOID VALVE ISOLATION VALVE.

3. LOCATION OF HOLDING CELL ISOLATION VALVE MANUAL OFF. COORDINATE WITH OWNER FOR EXACT LOCATION.
