1. What is the anticipated contract start date?
   Answer: January 1, 2020

2. What is the anticipated timeline in security clearance/background checks for applicants/prospective new hires?
   Answer: 72 business hours

3. Will a bond be required for the deductible or self-insured retention of the vendor’s professional liability insurance policy? (page 6 – insurance requirements).
   Answer: TBD (See Addendum #2)

4. Is the County requiring the vendor to have coverage for pollution, legal, liquor, and inland marine liability? (page 8 – additional insureds).
   Answer: TBD (See Addendum #2)

5. Are all patient sick calls seen within the medical unit, rather than the pods?
   Answer: Typically yes, for providers, however services will be provided wherever necessary with safety in mind. Nursing sick call is generally done in the pods.

6. Is the CorEMR license held by the County or the current vendor?
   Answer: Current vendor.

7. Please confirm all fees, monthly maintenance, and storage of the CorEMR system so they may be accurately included in the vendor’s budget.
   Answer: Not available. This will be the responsibility of the vendor. The County does not interact with this.

8. Please confirm CorEMR is a total use system, thereby eliminating the use of any paper forms for medical staff? And if not, please indicate the forms medical staff still use in paper format.
   Answer: Not available. There are paper forms used by the current vendor, but a comprehensive list is not available and would be unique to the current vendor’s processes.

9. What equipment does the County currently own in regards to the CorEMR system (printers, scanners, signature pads, computers, etc.)?
   Answer: All equipment is/would be the responsibility of the vendor.

10. Does the current CorEMR system connect directly to the County’s JMS? If so, will this bridge connect continue at no cost to the Vendor? If there is a fee, please provide it.
    Answer: There is push of inmate data from the JMS to CorEMR. A fee for this is not known however all fees associated with CorEMR are the responsibility of the vendor.

11. Please give an estimate of the daily number of co-payment transactions are entered by medical staff (page 19 - #7).
    Answer: Approximately 450/month

12. Please provide a copy of the medical clearance form used for inmate workers (trustey prisoners).
    Answer: This is part of an internal process and will not be provided at this time. The County’s form requires a date, signature, approval or denial acknowledgment and documentation if there are any restrictions.
13. Please provide information as to current open positions, and the length of time they have been unfilled with permanent staff members.
   Answer: This information can be requested of the current vendor.

14. Has the County ever received any reimbursements from the vendor for unfilled positions? If yes, please state the amount.
   Answer: Yes. This was several years ago and the amount is unknown at this time.

15. Please provide a one-week staffing matrix showing how coverage is set at the facility currently for all medical staff.
   Answer: The details of a specific staffing matrix is viewed as proprietary to the current vendor and will not be disseminated by the County unless otherwise noted in any existing contract obtained through the County Purchasing Department.

16. Will the County require 10 hours per day, 7 days per week nursing coverage at the new Booking Substation once it opens on 1/1/2020? If not, what staffing level is the County requesting?
   Answer: Based on this information, The County is interested in proposals that account for nursing needs at this location with the hours of operation provided and any and all associated costs.

17. What is the anticipated length of time that inmates will be held at the Booking Substation before being transferred to the main jail?
   Answer: This is unknown at this time and is anticipated to vary.

18. Please provide the volume by month for the following:
   a. Number of patients seen by
      i. Medical Director
         Answer: Medical Director and NP combined numbers are 433/month (2019 mid-year average)
      ii. Nurse Practitioners
         Answer: See above.
      iii. Psychiatrist
         Answer: Approximately 113/month (2019 mid-year average)
      iv. Psychologist
         Answer: N/A
      v. Dentist
         Answer: Approximately 38/month (2019 mid-year average)
   1. Number of Health & Physicals performed
      Answer: Approximately 310/month (2019 mid-year average)
   2. Number of Receiving Screens performed
      Answer: Approximately 894/month (2019 mid-year average)
   3. Number of Suicide Screens performed by vendor
      Answer: Approximately 100/month
   4. Number of glasses provided to inmates
      Answer: Approximately 350 reading glasses/month.
19. How long does it take to pass medications currently?
   **Answer:** Approximately 2-3 hours per med pass per nurse for morning and evening med pass (4 nurses for each of these med passes).

20. How often are nurses required to appear in court?
   **Answer:** Not often if ever.

21. Will the County consider bids from vendors who do not meet the minimum qualification of retaining contracts with 3 NCCHC accredited jails with one of similar size to Weld County if they have a volume of experience in providing services to similar sized facilities that may not be accredited?
   **Answer:** A vendor’s qualifications will be evaluated through an objective process by way of the information provided in their respective proposals. A determination of a vendor’s ability to meet all RFP requirements will be made through this process.

22. Please provide a list of all training that the County will require from the Vendor (ie. First Aid, CPR, etc.).
   **Answer:** This question is taken to mean training that the vendor’s staff will provide to County staff: None.

23. How many separation rooms are located in each wing for medical use?
   **Answer:** With the jail population and the needs of the inmates being so fluid, rooms for medical need will be made available as they are needed and as is appropriate. These may not be on each respective wing, but will be made available as needed.

24. Page 15 Immunity from liability (2nd paragraph): We fully accept indemnification of the County for our (CHP) acts or omissions, but many operations in the jail have medical staff performing their duties side by side with security personnel. Can the County confirm its intent to defend itself and County personnel against its own acts or omissions in the event a lawsuit, even if allegations include CHP in the lawsuit?
   **Answer:** TBD (See Addendum #2)

25. Page 12 of the RFP describes a $50,000 a year cap for the cost of HIV/AIDS medications. Would the County accept an expanded list of high-cost drugs under the cap? Examples include drugs for: transplant anti-rejection; Hep C; cancer; biologicals for rheumatoid arthritis; hemophilia. We would always utilize the patient’s own meds if they had them.
   **Answer:** This will be a consideration in the proposal review process.

26. Please share the amount the County has spent over $50,000 cap for HIV/AIDS drugs for the past three years. If none, what does the current contract say about who keeps unspent funds?
   **Answer:** Exact figures are not available at this time. Unspent cap fund money will be reimbursed to The County.

27. Please share the amount the County has spent over the annual $125,000 cap for offsite services for the past three years?
   **Answer:** Exact figure are not available at this time.

28. On p. 11, it states that the successful provider will be expected to meet the current pay rate and shift differential rate for incumbent staff. Would the County be willing to share the current wages and shift differentials for the current staff?
   **Answer:** The exact current wages are not known for the current staff and would not be disseminated. However, the following would be a range a vendor could expect to see for certain positions; HSA: $95K-$100K/year; DON: $80K-$85K/year; AA: $20-$25/hour; Midlevel NP: $99K-$100K/year; Medical Director/MD: $165/hour; Dentist: $100/hour; Psychiatrist: $200/hour; Mid Level NP- Psych: $86-$89/hour; Dental Assistant: $16-$18/hour; Medical Assistant: $15-
$18/hour; Registered Nurse: $30-$36/hour; LPN: $20-$26/hour; Night Shift Differential: $5/hour; Weekend Differential: $3/hour.

29. Will the County please provide the current staffing plan?
   Answer: The details of a specific staffing matrix is viewed as proprietary to the current vendor and will not be disseminated by the County unless otherwise noted in any existing contract obtained through the County Purchasing Department.

30. On p. 24, it is stated “The Provider will supply, at its expense, on-site office equipment such as computers, copiers, fax machines, pagers, calculators, and any other computer related hardware mentioned within the RFP.” Please share the inventory of such materials and equipment that will be available to a new medical vendor when they take over the contract.
   Answer: This is not known as these items would be the property of the current vendor.

31. Would the county be willing to provide off-site medical utilization stats for the past 12 months including ER visits and dental utilization?
   Answer: ER Visits are approximately 16/month (2019 mid-year average). Dental utilization is dealt with on site and any emergency dental visits are not known at this time.

32. Would the County provide the current vendor’s contract, including all amendments.
   Answer: These would have to be requested through the County’s Purchasing department.

33. Please provide the staffing matrix that is referenced as “Exhibit A” in the current Armor Contract.
   Answer: The details of a specific staffing matrix is viewed as proprietary to the current vendor and will not be disseminated by the County unless otherwise noted in any existing contract obtained through the County Purchasing Department.

34. Please provide the proposals submitted by Correct Care Solutions and Southwest Correctional Medical Group during the last RFP cycle in 2016.
   Answer: A request for these would have to be made through the County’s Purchasing Department.

35. Please provide any facility statistical reports related to the medical operation for the past 12 months.
   Answer: This is too broad and will not be made available according to this specific request as it is written.

36. How many patients (by category) were treated with HIV, Hemophilia, Oncology, MS, and Hepatitis C (e.g. Harvoni or similar) medications over the past 12 months?
   Answer: This is not available at this time with the time frame given for responses.

37. What was Weld County’s total cost (by category) to treat HIV, Hemophilia, Oncology, MS, or Hepatitis C over the past 12 months at the detention facility? Were these costs included in the base contract fee with current vendor or did Weld County pay additional fees?
   Answer: These costs were incurred with the base contract fee.

38. What MAT options are currently available for substance abuse patients at the detention facility?
   Answer: MAT services are currently available for pregnant female inmates based on continuity of care.
39. Which specialty services (x-ray, OB/GYN, orthopedic, dialysis, etc.) are provided onsite as opposed to requiring transport to the community?
   Answer: Etc. will not be responded to here. X-rays are available on site through a contracted service the current provider has in place.

40. Will the County provide the RFP in a Microsoft Word format?
   Answer: This request can be made through the County’s Purchasing department.

41. The Performance Bond section under the General Terms and Conditions age 15 of the RFP states, “The selected bidder must maintain a Performance Bond in the amount of the annual total cost of the contract... The Performance Bond may be in the form of a certified check payable to the County, or may be in the form of a Surety Bond from a company qualified to do business in the State of Colorado. The costs for the bonds must be included in the proposed total bid amount. This performance bond may cost as much as $150,000 and understanding the County places an emphasis on the tax dollar, would the County consider waiving this requirement in an attempt to save tax-payer dollars?
   Answer: TBD (See Addendum #2)

42. The last bullet under states, “Retention of current medical staff is a high priority for the County. It is expected that potential providers will offer competitive wages for current staff that, at a minimum, meet their current pay rate and shift differential rate.” Understanding the compensation and shift differential rates and fringe benefits currently being offered is essential in effectively matching these rates and meeting this requirement. Please provide a detailed description of the current provider’s compensation, shift differential rates and fringe benefits which are offered to their employees to include: Answer: Please see response to question #28.
   a. Paid time Off (PTO),
      Answer: This will not be provided.
   b. Vacation Days,
      Answer: This will not be provided.
   c. Paid Holidays,
      Answer: This will not be provided.
   d. Detailed Description of Employee Health Benefits.
      Answer: This will not be provided.

43. Please provide the respective hire date for each of the current provider’s employees.
   Answer: This will not be provided.

44. Section 1 on page 1 of the RFP states, “Emailed proposals are preferred. Proposals may be emailed to: bids@weldgov.com. Emailed proposals must include the following statement on the email: “I hereby waive my right to a sealed proposal”. An email confirmation will be sent when we receive your bid/proposal. If more than one copy of the proposal is requested, you must submit/mail hard copies of the proposal.” Please confirm the County is requiring all proposals to be e-mailed.
   Answer: This will not be interpreted further.

45. Through Colorado’s Transparency Online Project (TOP) System, it’s clear Colorado’s Counties are making a serious attempt to be much more transparent. Would a
simple, and fully transparent spreadsheet detailing additional financial detail supporting the County’s costs for this “Inmate Healthcare Services” program be considered “Proprietary” and protected as “Confidential”? Does the County have an interest in seeing such financial transparency or would the County like to see pricing submitted in a simple non-transparent format?

Answer: Potential vendors can make their own choices of how they wish to competitively submit their proposals with associated costs for services. Vendors will not be guided on this.

46. Section 6 on page of the RFP requires, “Nursing services must be available to provide for the following:

a. 24-hour response to the booking area within 10 minutes of an officer’s request to evaluate the physical condition of a prisoner and determine if the prisoner’s health would be compromised if the prisoner were accepted for admission

b. 24-hour response to booking area within 10 minutes of an officer’s request to medically assess the prisoner’s post-acceptance risk when indicated by a preliminary booking process prisoner risk assessment instrument.”

c. Does the current provider manage dedicated medical personnel at the intake area 24/7/365? Please confirm RNs are utilized in the intake area and please also confirm the County is requiring the successful provider to schedule RNs to manage the intake process.

Answer: There will always be an emphasis on having nursing staff available to meet the demands of booking and this is a priority in the totality of staffing decisions each day. Vendors will be responsible for providing the appropriate level of nurse/s to booking and intake areas, as well as others, commensurate with licensing and accreditation authorities. A bidding vendor’s staffing decisions for this site will be considered in the evaluation of qualified proposals and will not be further guided here.

47. Page 11 of the RFP states, “The bidder must have at least five (5) continuous years of corporate experience in providing health care services at correctional facilities and have at least three (3) current contracts with separate agencies with correctional facilities of at least 500 beds.” Would the County be willing to waive this requirement and/or accept competitive proposals from providers whose leadership team has nearly two (2) decades of experience successfully implementing and managing quality, compassionate and comprehensive inmate medical, behavioral and ancillary healthcare programs and services in county detention facilities of various size and scope, many of which being of similar size and scope to the Weld County North jail Complex?

Answer: Potential bidders are expected to meet all requirements and qualifications outlined in the RFP and make their own decisions if they do or not. Proposals will be evaluated through the process outlined in the RFP.

48. Page 12 of the RFP states, “The bidder must have demonstrated its experience and the quality of its care by having maintained or obtained the accreditation of the
National Commission on Correctional Health Care (NCCHC) in a minimum of three (3) jails and or prison facilities with at least one of which is a size comparable to the Weld County Jail.” Would the County be willing to waive this requirement and/or accept competitive proposals from providers whose leadership team has nearly two (2) decades of experience successfully earning, maintaining and retaining NCCHC accreditation in county detention facilities of various size and scope, many of which being of similar size and scope to the Weld County North jail Complex?

Answer: Potential bidders are expected to meet all requirements and qualifications outlined in the RFP and make their own decisions if they do or not. Proposals will be evaluated through the process outlined in the RFP.

49. It is understood the booking substation will open and become operational in January 2020. Page 12 of the RFP states, “All proposals must clearly indicate any increased costs associated with providing appropriate medical screening/services at the new booking substation should this operation increase to 24 hours a day seven days a week.” Please explain with as much detail as possible the following questions:

a. What are the “appropriate medical screening/services” the County is expecting to be provided at the Booking Substation?

   Answer: No other guidance will be provided here.

b. Approximately how many intakes does the County expect to manage on a daily basis at the Booking Substation?

   Answer: This is not known at this time. The substation is very small and could not easily hold more than 10 inmates at a time.

50. Will there be a medical exam room established at the Booking Substation?

   Answer: No.

51. What is the projected average length of stay at the Booking Substation?

   Answer: This is not known at this time. The intent is for a short-term stay until transported to the North Jail Complex.

52. Does the County expect connectivity with CorEMR at the Booking Substation? If so, how many computer stations will be maintained?

   Answer: At this time yes, the County does expect connectivity with CorEMR at the Substation. “Computer stations” will be limited due to the small space but the exact number is not known at this time. It is unclear what is meant by “maintained” so this will not be responded to here.

53. What is the County’s plan for medical equipment and supplies at the Booking Substation?
Answer: The County will provide necessary medical equipment for the substation and supplies will be provided by the provider in accordance to the Supplies and Office Equipment section of the RFP.

54. Will medications be stored and managed on-site at the Booking Substation?

Answer: This will be a consideration in the planning and implementation of services at this location. It is assumed that in some capacity this would be necessary for the successful implementation of medical services.

55. Will the County require dedicated personnel at in the Booking Substation? Will the County be requiring RNs to be scheduled to manage the intake process at the Weld County North Jail Complex?

Answer: Potential bidders are expected to submit a proposal with a staffing matrix that meets the requirements of the RFP, national standards, appropriate laws, licensing standards, and is line with the quality medical services The County has come to expect from vendors.

56. At the Booking Substation, will Pre-trial services be involved to divert any offenders prior to booking?

Answer: This is not a consideration at this time.

57. What is the average length of stay at the Weld County North Jail Complex?

Answer: Approximately 21-22 days.

58. The County is actively in the process of developing and implementing a Medication Assisted Treatment (MAT) program. With several variations of MAT models being supported around Colorado and the nation, which Counties, or MAT models is Weld County basing its model? Please be as specific as possible, including the addition of healthcare personnel, as the preferred model will have a direct correlation with proposed coverage models.

Answer: This is not developed at this point.

59. When does the County anticipate implementing the Medication Assisted Treatment (MAT) program?

Answer: This is unknown at this time.

60. What are Weld County’s primary goals with the MAT program?

Answer: This will not be responded to here.

61. What are the most prominent drugs abused in Weld County’s community, and/or seen in the jail?
62. Does the County currently benefit from a mental health court, or a drug court?
Answer: The 19th Judicial District does facilitate a drug court.

63. Does the County currently support a liaison with the court system to work closely with the Weld County’s North Jail Complex?
Answer: There are a few different legislative initiatives supporting this and Weld County will work with those entities identified by legislative requirements.

64. Does the County currently support interns, or volunteers to work/volunteer at the Weld County North Jail Complex? If so, what are their primary functions?
Answer: This is and has been supported at times. These opportunities are considered on a case by case basis dependent on the need for services, available candidates and security implications.

65. How many times over the past two (2) years (2017 and 2018) has the incumbent exceeded the $125,000 annual off-site cap?
Answer: 0.

66. How many times over the past two (2) years (2017 and 2018) has the incumbent exceeded the $50,000 annual HIV/AIDS aggregate cap?
Answer: We have not had a $50,000 cap previously.

67. Page 22 of the RFP states, “The Provider shall provide a program for meeting the special needs of the female population; e.g. pregnancy.” Please explain the level of OBGYN services that are currently being provided at the Weld County North Jail Complex. What has been the County’s census for pregnant females each of the past two (2) years (2017 and 2018) and 2019 to date? What is the average length of stay for this population?
Answer: OBGYN services are provided with a combination of on-site examination and treatment planning as well as through off site care coordinated by the current vendor with community providers. Census: 2018 = 56; 2019 mid-year = 26. Average length of stay information is not known at this time for this sub-population.

68. Does the incumbent provide pregnancy testing on any, and all new female inmates?
If so, on average how many pregnancy tests are provided annually, and will the successful provider be financially responsible for these test kits?
Answer: All incoming females are offered a pregnancy test that they can voluntarily take. Any testing supplies would be the responsibility of the vendor.

69. Is methadone currently being provided for pregnant female inmates? If so, how many inmates in the past two (2) years (2017 and 2018) and 2019 to date have been a part of the methadone program?
Answer: Please refer to the answer for question #38. Numbers are not available at this time.

70. Please provide copies of the last two (2) Medical Administration Committee (MAC) reports.
Answer: This will not be provided.
71. Item 16 on page 23 of the RFP requires, “The Provider will have a strategic plan to facilitate on-site dialysis treatment.” Are dialysis services currently being provided and managed on-site at the Weld County North Jail Complex? On average, how many inmate-patients receive dialysis treatments on an annual basis? Are there plans to include dialysis treatment and waste management services in the new wing?
Answer: Dialysis treatment is not currently provided on site. Approximately 3-5 inmates per year require dialysis and these inmates have varying lengths of stay. It is unknown the extent to which dialysis may be provided on site, hence the request to see if it is a viable option for future consideration.

72. Please explain and provide detail of the current inmate detox/withdrawal program. Where are patients housed who are being monitored for withdrawal? On average how many patients daily are monitored for detox?
Answer: Inmates are placed on withdrawal protocol after a thorough assessment to determine their needs related to this intervention. The details/mode of this intervention are provided by the vendor. Inmates on a withdrawal protocol will be housed wherever is appropriate with consultation between medical staff and security staff. Approximately 20 inmates per day are monitored for this.

73. What has been the average monthly census of HIV inmates over the past two (2) years (2017 and 2018) and 2019 to date? What is the average length of stay for this population?
Answer: There were 8 chronic care visits with HIV inmates in 2018 and 7 chronic care visits with HIV inmates by mid-year 2019. Please note that there were chronic care visits and not the number of HIV inmates booked in. Length of stay is not available for this sub-population.

74. Are intravenous (IV’s) medications currently being provided and managed on-site?
Answer: This can be available on site.

75. Does the incumbent currently provide, or offer STD testing on any, and all inmates upon intake? If so, specifically what STD testing is being offered? Are STD tests the financial responsibility of the successful provider? If so, how many STD exams are performed annually?
Answer: STD testing is performed upon request of the inmate. All STD testing may be offered. Any testing would be the responsibility of the vendor. An annual number is not known at this time.

76. When at the point of incarceration are TB tests being administered (upon intake, the 7th day of incarceration, the 10th day or the 12th day)?
Answer: At the 14 day health assessment.

77. Is the successful provider financially responsible for TB serum, or does the County’s Health Department currently cover these costs?
Answer: This would be the responsibility of the provider regardless of funding stream.

78. Please confirm the financial responsibility for all computer equipment lie with the successful provider, and the County will be responsible for all medical related
equipment (i.e. EKGs, wheelchairs, exam tables...). Please provide a complete list of the existing computer and technological equipment to include, but not be limited to desk-top computers, laptop computers, printers, copiers, document scanners, medication carts and other equipment being utilized in the Weld County North Jail Complex. Please include the age and approximate condition of the computer equipment.

Answer: The RFP’s description of responsibility is deemed sufficient in this area. A list of equipment and related condition/age will not be provided.

79. How many medication carts does the incumbent currently utilize with each medication pass? On average, how long does each med pass take to complete?
   Answer: 4 carts. See above response to similar question.

80. Does the County allow for inmate’s medications to be brought in by family members?
   Answer: On a case by case basis and if it meets certain criteria from an identification and tampering standpoint.

81. What are the primary med pass times in the Weld County North Jail Complex?
   Answer: 0800, 1000, 1400, 1600, 2000, 2200, 0430.

82. What times of the day/evening do Trustees/Inmate Workers receive their medications?
   Answer: same as above. Where do they receive their medications?
   Answer: Dependent on their location.

83. Does the County allow inmates with any Keep on Person (KOP) medications? If so, which medications are allowed?
   Answer: This is not allowed.

84. What are the top 20 most prescribed pharmaceuticals?
   Answer: This will not be provided.

85. What are the top 20 most prescribed psychotropics?
   Answer: This will not be provided.

86. Are the County's inmates provided with a supply of medications upon release? If so, how much is provided? Please describe how this process is currently being managed.
   Answer: Inmates are generally not provided with medications upon release. There have been exceptions with specific parameters involved and these are rare occasions.

87. Please provide a detailed summary of the mental health coverage, programs and services being provided at the Weld County North Jail Complex.
   Answer: Outside of psychiatric medication provisions and the person providing those services, the mental health services are provided by The County by County staff. These services are extensive and too voluminous to account for here.

88. Does North Range Behavioral Health currently provide and manage any group counseling programs? If so, please provide a complete list of the various group therapy/counseling classes/programs which are currently being provided on-site at the Weld County North Jail Complex.
   Answer: North Range Behavioral Health provides staff for the Jail Based Behavioral Health Services program (JBBH) which is a state funded program. They provide evidenced based interventions for the inmate population enrolled in the program.
Again, the types of services asked for in this question are too voluminous to list out here.

89. Does the County currently work with any community based mental health providers to help reintroduce offenders back into the community and reduce recidivism? If so, please provide a list of these providers.
   Answer: North Range Behavioral Health would be our main partner but staff will work with any provider identified and willing to collaborate on services for inmates.

90. Please provide the number of attempted suicides over the past two (2) years (2016, 2017 and 2018) and 2019 to date?
   Answer: 2018 = 9 attempts; mid-year 2019 = 3 attempts.

91. Please provide the number of completed inmate suicides over the past two (2) years (2016, 2017 and 2018) and 2019 to date?
   Answer: 2018 = 0; 2019 = 0 YTD.

92. On average, how many inmate-patients are monitored for suicide precautions on a daily basis?
   Answer: 15-30.

93. What is the accessibility for inmates requiring acute psychiatric hospitalizations when care and treatment is beyond the scope of practice on-site? How many inmates were transferred to your acute psychiatric hospital(s) the past two (2) years (2017 and 2018) and 2019 to date?
   Answer: This is managed on a case by case basis. Acute psychiatric hospitalization is not typically utilized with the lack of services in this community. The Jail would look to the state hospital for this level of service. 2018 = 0; 2019 = 0 YTD.

94. What is the County’s process for inmates that meet requirements for involuntary hospitalization?
   Answer: Mental health staff would manage this in their capacity in collaboration with any outside entities.

95. Where does the County send inmates requiring inpatient Psychiatric treatment?
   Answer: Typically, the state hospital.

96. Are inmates currently given forced or involuntary psychiatric medications when they’re a danger to self or others as a result of a psychiatric disease, disorder, or illness?
   Answer: Typically, they are not given this type of intervention on site.

97. How many inmates were found Incompetent to stand trial the past two (2) years (2017 and 2018) and 2019 to date? What has been the average length of time inmates wait pending transfer to the state hospital?
   Answer: Competency being raised in the court process: 2018 = approximately 62; 2019 = approximately 50 mid-year YTD. Transfer time is not known at this time.

98. How does the County manage inmates who are being released, but continue to be high-risk (e.g. on suicide watch)?
   Answer: Mental health and medical staff will work with community partners to address any needs an inmate may have upon release.
99. Please provide a copy of the current contract for Inmate Medical Services and all associated amendments.
   Answer: This request can be made of the County Purchasing Department.

100. The RFP states end of 2020 as the estimated opening of the new jail wing currently under construction at Weld County North Jail Complex (WCNIC): what is the anticipated ADP impact and time frame of occupancy ramp with this addition?
   Answer: The new wing will add 381 beds to the jail’s capacity. Projections for how and how quickly those beds will be utilized are still being developed and discussed.

101. Please confirm the estimated opening of the Booking Substation with in the Del Camino Substation in Longmont, CO.
   Answer: The best estimate is January 1, 2020. This is an active construction project with variations to the timeline frequently.

102. Can you please provide a copy of the current most recent staffing matrix by shift and position/title with corresponding salaries / hourly rates?
   Answer: Please see the responses to questions # 28 and #33
