Answers to questions for solicitation B1900118 – JAIL POLYCARBONATE PANEL INSTALLATION

August – 7, 2019

1) Question: How would you like the bid form submitted online or through email or both? There is conflicting information about the submission process.

   Answer: Bids should be emailed to the purchasing department bids@weldgov.com.

2) Question: Is this project tax exempt?

   Answer: Yes.

3) Question: Please provide clarification for the thickness of the polycarbonate panel, there is conflicting information between the drawings and the specs.

   Answer: Please see addendum #1.

4) Question: Where is the bottom of the panel going to end? Will it end at the top or the bottom of the stringer?

   Answer: Please see addendum #1

5) Question: Please provide updated drawings reflecting the exact location of where the polycarbonate panels will be going in each housing pod. From the information given at the site walk there is more work that is expected that is not on the drawing.

   Answer: Please see addendum #1

6) Question: Please provide information for the install of the security screws. Are these screws being installed straight into the angle or into some sort of washer / nut?

   Answer: The sex screws called out will penetrate through the polycarbonate and the angle iron.
7) Question: Please provide updated drawings to reflect the infills required at the locations where the stair and mezzanines are offset.

Answer: Each location is different and it will be the responsibility of the GC to determine the best way of closing these gaps. They will need to be closed so that there is no hand or toe hold.

8) Question: Please address and make the necessary changes to the drawings with the information we have included in our attached document containing notes taken from the site walk.

Answer: Please addendum #1.

9) Question: Please clarify if vertical bar is being demolished or if the additional bar is needed to run to the bottom of the stringer.

Answer: Please see addendum #1.

10) Question: Are the panels to be full height to the ceiling or are they to 8’ high?

Answer: Panels will be full height to ceiling.
