AD-23 Roadway Weather Towers
Bid Request No. B2000059
Weld County, Colorado

ADDENDUM NUMBER TWO

The following shall be incorporated into the CONTRACT DOCUMENTS, for the above-referenced PROJECT:

A. Contractor Questions and Responses

All other terms and conditions of the CONTRACT DOCUMENTS shall remain unchanged. BIDDER must acknowledge receipt of this addendum in the space provided in the BID. Failure to acknowledge receipt of an ADDENDUM may be cause for rejection of the BID.

A. CONTRACTOR QUESTIONS AND RESPONSES

Question 1: How are we expected to acquire a quote from the preferred manufacturer if no one can reach them via email or phone?
Answer 1: Weld County is aware of the problems getting in touch with Glen Martin. At the pre-bid meeting, Weld County agreed to accept towers from other manufacturers as long as those towers still met specifications. See Addendum 1 for an example of other tower manufacturers that have towers similar to the Glen Martin tower.

Question 2: Can the County provide contact information of the other tower manufacturers?
Answer 2: No, there are multiple distributors of the towers that were provided as examples. An internet search should be able to provide contact information for the various tower manufacturers and distributors.

Question 3: How many amps at 120 volts will need to be provided to the weather station?
Answer 3: The instrumentation vendor has informed the County that they will need a 15 Amp circuit.

Question 4: Is GC Licensing required for the project?
Answer 4: General Contractor Licensing is not required for the project. The bid document summarizes the requirements for insurance, bid bond, and performance bond. The bid bond will be required at the time of the bid. The insurance and performance bond will be required prior to entering into the contract.
