MEMORANDUM

TO: Board of Commissioners           DATE: March 13, 2019

FROM: Jay McDonald, Director of Public Works

SUBJECT: 2019 Concrete/Washed Rock/Squeegee, B1900054

The Public Works Department recommends that the Board of County Commissioners award the washed rock to J-2 Contracting for northern Weld County at a price of $28.00 per ton. We further recommend that Martin Marietta be awarded the bid for southern Weld County at a price of $27.00 per ton. To minimize trucking expenses, purchasing material from both vendors is cost effective.

The Public Works Department recommends that the bid for squeegee be awarded to Martin Marietta for northern and southern Weld County at a price of $11.00 per ton. Martin Marietta is the low bidder for squeegee.

The north and south division of Weld County for concrete is US Highway 34 due to the location of concrete batch plants. Concrete Mobile Mix, LLC does not have a batch plant and uses four mobile trucks to mix and pour concrete on-site. Mixing and pouring on-site is acceptable for smaller jobs, but not larger jobs such as bridge projects where a large and constant flow of concrete is needed which cannot be handled by four mobile trucks. Concrete would be ordered based on the size of the project and we recommend awarding the concrete as follows:

Concrete Mobile Mix, LLC – Exterior Class D for northern and southern Weld County at a cost of $120.00 per yard; Flowfill for northern and southern Weld County at a cost of $105.00 per yard.

Martin Marietta – Exterior Class D for southern Weld County at a cost of $142.00 per yard; Pumpable Exterior Class D for northern and southern Weld County at a cost of $142.00 per yard; Flowfill for northern and southern Weld County at a cost of $115.00 per yard.

A total of $116,500 is budgeted for this purchase.
