MEMORANDUM

Date: November 20, 2019

To: Rob Turf, Purchasing Manager

From: Michael Bedell, P.E., Senior Engineer

RE: Bid Request No. B1900130
    BOCC Present and Approval Date November 25, 2019

Bids were received and opened on November 20, 2019 for contracted construction of the WCR17/54 Irrigation Project (Roundabout Phase 1). Five (5) bids were received ranging from $996,929.50 to $1,295,231.00 with the lowest bid submitted by Mountain Constructors Inc. from Platteville, Colorado. My Engineer’s Estimate for this project was $1,009,945.20.

The submitted bids have been reviewed for errors and completeness, and none were apparent. The bid tabulation is attached for your information.

It is staff’s recommendation to award the construction contract to Mountain Constructors Inc. for a total amount of $996,929.50. Public Works has worked successfully with the Contractor in the past, on similar projects. The work involves reconstruction of farmers irrigation facilities adjacent to the project. Therefore, to ensure we can accommodate the next irrigation season, we are requesting an Emergency Approval for the purpose of starting the work as soon as possible. If this bid is approved by the BOCC on November 25th, construction is planned to commence in December 2019 and is planned to be completed by April 2020.
