

Why I am Free Today

Kate Lukens

The Constitution and The Bill of Rights
Keep order and break up fights

As America's tools
They are special rules

The government system is what makes our land great
With fair and equal representation from every state

They are here to keep our country protected
By providing a military to keep our land from being infected

Through these documents we can keep and bear arms
Allowing us to protect our families and farms

While the Constitution tells senators how to play
The Bill of Rights lets us choose where we want to pray

We still use these documents from day to day
Weather its where we go or what we say

Turns out those old men weren't all that crazy
They keep our future from being dark and hazy
